SPHERA is a family project and many of our partners along the way have become our friends. The people in our community also contribute meaningfully to our efforts, as do the glorious vistas of the Judean Hills which echo in our wines and in our hearts.

This Israeli sauvignon blanc has a wonderful combination of ripe cassis, yellow grapefruit and white flower aromas with fresh acidity on the concentrated, mid-weight palate. Impressive textural complexity. Grown on volcanic and limestone soils in the Upper Galilee region. Matured on the full lees for seven months in stainless steel. Drink or hold.
