

THE G.E. MASSENEZ STORY

Founded in 1870 in Alsace, Distillerie G.E. Massenez remains today one of the last family-owned firms dedicated to the production of traditional, top-quality eaux-de-vie (fruit brandies) and liquors. It is in fact this dedication to the “distillerie artisanale” which led Eugène Massenez to develop a formula for raspberry eau-de-vie and make it commercially available to an appreciative public worldwide. The distillation method is still a closely guarded family secret.

The distillation of high quality eaux-de-vie is not consistent with industrialization; thus Massenez has chosen to retain traditional methods. Only the best fruits are selected and stored in large fermentation vats prior to distillation. After careful and patient ageing lasting several years, the eaux-de-vie is bottled.

Uncompromising on quality, Massenez is today universally acclaimed for eaux-de-vie, such as *wild Raspberry* and *Williams Pear*, as well as for creams and liquors : Peach, Blackcurrant, etc. Massenez has won many awards at international exhibitions, including the world oscar for quality in 1980. These wonderful products are sold through the world, as 70% of the production is exported.

G.E. Massenez Golden Eight Pear Liqueur®

G.E. Massenez has created a beautiful new Pear Williams Liqueur: Golden Eight. Golden Eight is a divine pear liqueur enhanced by adding more than 8-year old pear eau-de-vie, giving it a long lasting taste on the palate with notes of vanilla and caramel. Approximately 20 pounds of pears are used to produce this unique liqueur. Golden Eight offers itself for tasting with a beautiful amber color and fiery golden highlights, a divine promise of a great liqueur. A unique and exclusive offering from the Massenez distillery, founded in 1870, which prides itself on guarding its secret recipes and passing them on from generation to generation.

G.E. Massenez Poire Williams

Williams Pear Eau-de-Vie from the MASSENEZ distillery is outstandingly refined, concentrated and balanced. An intense emotion true to the personality of the original fruit.

Color: Clear, colorless, with characteristic fruit Eaux-de-Vies brilliance. A supple, fluid Eau-de-Vie.

Nose: Clean and typical of Williams Pear, with no strange notes. The intense nose is an indication of the quality of the selection of the original fruits and delicate distillation. Very fruity, long lasting and truly inviting bouquet.

Palate: Very prominent spicy endnote with a hint of Licorice typical of williams pear.

G.E. Massenez Poire Prisonnière

"Prisoner Pear" is the same eau de vie as the Poire Williams with the addition of the pear in bottle.

Icon of the Massenez Brand, the William Pear eau de vie "Prisoner Pear" captivates with its olfactory and gustative qualities and the pear-shaped bottle with a whole pear inside.

The bottle is simply attached to the pear tree in flower... so the fruit develops inside the bottle.

When it ripens, the fruit and the bottle are carefully detached.
