Viticulture:	Culture raisonnée. Vine growth management adapted to the climatic conditions
Harvest:	Manual
Harvest dates:	Merlot : September 16th - 18th - Cabernet Franc : September 22nd
Winemaking:	In thermo-regulated concrete vats. Malolactic fermentation in oak barrels
Aging:	12-18 months in oak barrels. 12-18 months in French oak barrels (1/3 new, 1/3 1 year old, 1/3 2 years old)

History

Château Plince is situated just outside the village of Catusseau in Pomerol, and has been owned by the Moreau family for over four generations. The vineyard, planted on dark sand with an iron-rich subsoil, is made up of one block and counts Châteaux Nenin and La Pointe as its neighbors.

The vineyard is tended traditionally and with great care throughout the year (leafthinning, green harvests) in order to produce optimally ripe fruit that is expressive of this terroir. After harvest, the grapes undergo a careful sorting before being transferred to thermo-regulated cement tanks, where they are stored for one week of pre-fermentation maceration. Fermentation lasts for 1-2 weeks, and after 1-2 weeks of additional maceration, the wine is transferred to French oak barrels (1/3 new) for the malolactic fermentation, followed by 12-18 months of aging. Château Plince produces a classic Pomerol with the beautiful fruit, depth and concentration typical of this appellation.

2022 Vintage: The winter of 2019-2020 was the warmest in France since the beginning of the 20th century. It followed a very wet fall that replenished soil water reserves. January and February were exceptionally warm and dry, bringing on an early budbreak. Spring was warm and rainy, with precipitations that were significantly above average. Flowering took place very early. Fruit set was even and abundant, portending good yields. Green harvesting and precise grooming of the vines in the early summer were useful to rectify the irregularities of the budbreak and even out the yields. Summer was exceptionally hot and dry with virtually no rainfall in July. Welcome rain in mid-August ensured the grapes were able to reach full maturity. From the end of August, cool nights allowed the accumulation of sugar and anthocyanines in the berries to resume while preventing the deterioration of acids. The weather in September allowed for a serene harvest from the 16th to the 22nd.

JAMES SUCKLING - 92 POINTS

Dried blue flowers, ripe baked cherries, mussel shells and sweet berries on the nose. The acidity is at the lower end of the scale, with a medium to full body and firm, tight-grained tannins. Generous, with a hint of fruit sweetness before a long and firm finish. Drink from 2026.

WINE ADVOCATE - 90 POINTS

Offering up notes of sweet jammy cherries and strawberries mingled with cedary new oak, the 2022 Plince is medium to full-bodied, ripe and succulent, built around youthfully chewy tannins. As usual, this will be approachable on release. Published: Mar 06, 2025.
